

Creative Wealth Intl., LLC began its life as a nonprofit organization called The Money Camp with a simple idea...teach kids basic financial principles that lead to positive, healthy relationships with money and wealth in a way that is engaging, relevant and fun.

We believe *anyone* can become financially free with the right tools and information. Our philosophy is that once you're financially free, you can do a lot of good in the world.

As a nonprofit, we discovered that we weren't practicing what we preached...creating financial freedom for *ourselves*. So, we created a business that empowers others to create financial freedom in their lives while doing good in the process.

We don't think it should take money to learn about money (a topic kids should learn about at home and at school), however, we do realize it's often a requirement, so we maintain the nonprofit to provide scholarship assistance to those who need it.

All of our programs use hand-crafted, multi-sensorial curriculums which teach financial beliefs and attitudes followed by how to create passive income by investing wisely.

Our programs include...

- *Camp Millionaire*
- *Creative Wealth for Women*
- *Train-the-Trainer Program*
- *Creative Cash for Kids*
- *Creative Cash at School*
- *Customized Programs/Events*

Creative Wealth Shows You...

- *How your thoughts, beliefs and attitudes determine your wealth potential.*
- *How money is simply a form of energy.*
- *How to manage your money effectively when spending, saving, investing, donating.*
- *How to put your money to work for you.*
- *How to build financial freedom using stocks, business and real estate.*
- *The wonderful ways money is used to support family and community.*

Creative Wealth's financial principles are simple and easy to put into every day practice. We share the tools and teach the skills everyone needs to choose financial freedom:

- *Pay yourself first.*
- *Save early, save often, invest wisely.*
- *Only borrow money if it makes you money.*
- *Don't put all your financial eggs in one basket.*
- *Invest with your head, not with your heart.*
- *Interest is only interesting when you're receiving it.*
- *Money is a tool to reach your dreams.*
- *Life is an adventure, let passion be your guide.*
- *People don't plan to fail, they fail to plan.*
- *See it, say it, write it down.*
- *And many more...*

In addition to our signature summer camp programs, our unique financial literacy curriculum can be modified to fit other educational models:

- *Traditional classroom settings, assemblies*
- *After school and home school programs*
- *Corporate employee programs*
- *Short programs for kids and adults*
- *Conference and tradeshow programs*

Let us design YOUR perfect program!

Our Mission...

"Empowering individuals to be responsible for themselves and the world."

Testimonials...

"The most valuable thing I learned at camp is that becoming financially free is my choice, not a dream."

"For myself, being 18, I wasn't quite sure what to do with money other than spend it. This camp has really impacted my life, in teaching me how to diversify my money and learning how to make money work for me...."

"The program is great! After my son went on a scholarship, I wanted to go! Thank you."

"This was a great starting point for myself and my husband. This is the only area in our 18 year marriage that we have not been able to discuss. This opened us up to financial independence."

"I am thrilled I invested the money and time going to this program. I have a personal plan for financial success in my near and far future. For the first time, I feel excited about the possibilities for investing."

"You took a subject that I didn't want to look at and made it fun as well as informative. Thanks!"

"If you haven't already detected my enthusiasm about what you are doing, let me reiterate that you have a wonderful concept and program. For so many parents, they view the time when their teenager gets her or his driver's license as a rite of passage into independence. Truly, as important as driver's education is to their child's independence, so is proper money management. These programs are a must."
